July 19/76

My dear Gray

I have to thank you for
your of the 7th inst with the
enclosed bill for £2.0.0 I
have just taken to the post the
copy you ordered of NOT 11-parts
addressed to W. Thurber the
postage was only 1^s/6 (not 2^s/6)
so that I am in your debt 1^s/6

Enclosed are two or three
specimens of *Statice brasiliensis* which
a plant exceedingly like our *St.*
Leunonium to look at.

I have now almost got through

The 70 odd *Pentstemon* of H. Benth.
which have given me no small
trouble and shall in a few days go
to pay a few visits in the country
before taking up *Cyperaceae*

I regret not having stood to
convolute instead of convolve but
I gave away to Hooker and Oliver

Yours very sincerely
George Bentham
